

## 10638.00 LED Strip Mounting Extrusion

### TECHNICAL DATA

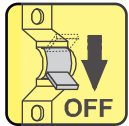

- Material: Extruded Aluminium  
 Finish: Silver Anodized  
 Dimensions: Length - 2m, Profile - See diagram below  
 Compatibility: Suitable for 10mm wide LED strip  
 Diffuser Options: Transparent - Item Code: 10639.00  
 Frosted - Item Code: 10640.00  
 Milky White - Item Code: 10641.00  
 60° Optic - Item Code: 10642.00

Supplied complete with end caps: (item code: 10643.00 or 10644.00 for 60° optic difuser), and mounting clips (item code: 10645.00)

### INSTALLATION

Isolate the electrical supply before undertaking any electrical work.  
 Installation must comply with the current wiring and building regulations

- Fix the extrusion with either:
- the mounting clips,*
  - a suitable adhesive,*
  - drill, counter sink and screw.*
- (All screws in the extrusion must be fully countersink and any burrs removed)

Notes:  
 Before fitting the LED Strip the surface inside the extrusion is;  
**completely free of dust and grease, and any drilling/cutting burrs.**  
 See the LED Strips installation instructions for complete installation and connection details.
